Notice of Allowability

Application/Control Number: 10/088,209

Art Unit: 1711

Applicants' amendment has overcome Kodama and Kato, formerly relied upon as no prima facie case of obviousness can be made over the claims as amended.. Niino et al. (US 6,777,487, newly cited), adds nothing to the art already of record and is not closer to the claimed invention than the art already cited . While arguably Niino et al teach or suggest applicants' components "A", "B" and "C" individually there is certainly no teaching or suggestion of applicants three components in combination.
